Lyrics

Nova generatia

Dizite ruke

Ovo nije racija

Ovo nije sala mi smo nova generacija

Novi su talasi sada prestizu stare

Novi su talasi niko da na put stane

Sirimo ljubav kada sirimo zrake

Gradimo metropolu dok gradite barake

Svaki zivot je svetao

Tomoras zapamtiti

Voli osobu do sebe

To ce ti se vratiti

Nova generacija

Preuzima stanje

Nova generacija

Mi imamo znanje

Nova generacija

Hajde sad sa nama

Nova generacija podji sa nama

Whoop wop

Mi smo nova generacija

Whoop whoop

Ovo nije nasa nacija

English

Hand in the air,

this is not a razia

This is not a joke

we are the new genetarion

This are the new waves

overcoming the old

This are the new waves

noboy stands in our way

We are spreading love

when we are spreading our waves

We are building a metropolis

while you are building baracks

Every life is holy

you must remember it

love the person next to you and it

will come back

New generation

takes over the condition

New generation

we have the knowladge

New generation

come with us

New generation

go with us

whoop whoop

We are the new generation

whoop whoop

this is not our nation

Start a Change

Ah, Ah, Ah...yeah, yeah, yeah
Ah, Ah, Ah...yeah, yeah, yeah...
Is hard to see the world going warm
But people doesn't care about the storm
Islands of trash in all the SEAS
Respect is what the mother Nature needs
It seems the human being os getting sick
Destroyng the hole world where he lives
I ask myself Whats going trough their Heads
My brother now we have to start a change
Move rightnow we have to do something
Time is passing by and some People are Just watching
Wake then, show then a way for a better world!
Is not so hard to change and make your part.

Let's love each other

Let's love each other!
Невеличка купа люду може світ змінити
Про це в книгах написали від Мед Маргарити
Органічні думи треба в голови садити
Коби з екослідом завтра не переборщити
Пам'ятати, що людина частина природи
Це не значить що їй можна міняти погоди
Збираймося в купки люди сталої громади
Тогди ми в любую негоду дамо собі ради

Mas'thandaneni = Let's love each other

Englisch

Let's love each other!

A small group of thoughtful, committed, citizens can change the world

These things were written by Margaret Mead

Organic thoughts we need to plant in our head

In order not to make eco footprint tomorrow more and more

Remember that human is a part of nature

It doesn't mean that we are allowed to change the climate

Let's join together in sustainable community

In this way we will change our future

Mas'thandaneni = Let's love each other

Let's love each other!

Eine kleine Gruppe Menschen kann die Welt verändern.

Davon hat man in den Büchern schon lange vor Margaret Mead geschrieben.

Organische Gedanken soll man in die Köpfe pflanzen,
um den ökologischen Fußabdruck nicht weiter zu vergrößern.

Vergesst nicht, dass der Mensch ein Teil der Natur ist. Und das heißt nicht,
dass es ihm erlaubt ist, das Klima zu verändern!

Wollen wir, oh liebe Menschen, kleine Gruppen bilden!

Dann werden wir bei jedem Gewitter alles schaffen!
